## 2026 TONE

Spring is not just color—it's a feeling of renewal.  
A shift in light, a change in mood, a quiet invitation to begin again.

For **Spring 2026**, color becomes more expressive yet remains deeply livable. This collection blends the warmth of Egyptian landscapes with the clarity of global design, creating spaces that feel both grounded and refreshingly modern.

Each palette is thoughtfully curated to reflect to how we live today—embracing natural light, soft contrasts, and a sense of effortless comfort.
